Six on Tin Groundbreaking

We recently celebrated the groundbreaking of the Six on Tin project with our friend and client, Windom Kimsey. The project will be the first of its kind, bringing 6 affordable tiny homes to an area right near Water Street and will be aimed at middle-market buyers traditionally priced out of the housing market. A big congratulations to everyone involved on the official start of this project long-in-the-making.

Helix Signs 1% Workforce Pledge

Helix Electric has been making big strides with their 1% pledge, a commitment to hire local high school graduates, looking to pursue a career in the trades, as at least 1% of their workforce for the next 10 years. As the first to sign the pledge in Southern Nevada, they are proving their position as leaders who support our trades industries.

Emerald Island Casino Celebrates 23rd Anniversary

Emerald Island Casino opened 23 years ago on May 23, 2003 and celebrated their Golden Birthday this year. To celebrate, the team threw a party with food, drinks and a sense of pride and happiness that was infectious. Good work to everyone who has worked to make Emerald Island a beloved part of Henderson, and here's to 23 more years!

Check Your Seats in the Heat

The annual Check Your Seats in the Heat launch went flawlessly. The event aims to bring awareness of the dangers of leaving children, pets and vulnerable individuals inside a locked car as temperatures rise across the valley. This year, the Henderson Professional Fire Fighters and the Henderson Police Officers Association joined forces to promote the message. At Trosper, we were thrilled to be able to secure live interview media coverage and features from five stations, as well as digital articles from five outlets.

A Deep Dive Into Broadbent & Associates

Broadbent & Associates was featured in NVBEX for its commitment to remaining an independent, employee-owned environmental consulting firm since its founding. The article highlighted how their Nevada roots, long-term client relationships and employee-focused culture have supported growth throughout the western United States while maintaining a personalized approach to environmental and engineering services.
